GREETINGS FROM THE MAYOR OF LODZ

Welcome to Lodz, a city of unique charm and originality on both a national and global scale. As your host, I hope this EAZA meeting inspires you professionally and personally. Lodz, with its fascinating history, grew dynamically during the industrial revolution, transforming into „the promised land” for entrepreneurs and workers across Europe. Its red-brick factories, tenement houses, palaces, and mansions created a multicultural industrial hub, now recognized as a Monument of History.

Today, Lodz thrives as a modern center for science, culture, and creativity. Iconic sites such as Piotrkowska Street, Manufaktura, and Orientarium ZOO Lodz attract visitors with their vibrant atmosphere. The city is undergoing significant revitalization, with investments reshaping its historic center and the development of the New Center of Lodz. From its post-industrial vibe to its rich cinematic legacy as „HollyLodz,” Lodz offers a unique experience. I invite you to explore its treasures and discover why it is often called the last undiscovered city.

Hanna Zdanowska

Mayor of Lodz

GREETINGS FROM ORIENTARIUM ZOO ŁÓDŹ CEO

For the next edition of the EAZA conference in 2025, I am pleased to invite you to Łódź, where our zoo has undergone an extraordinary transformation. Founded in 1938, the zoo now boasts the Łódź Zoo Orientarium, a state-of-the-art breeding and exhibition complex completed in recent years. Covering 7.5 hectares, the area includes a modern pavilion, conference facilities and carefully designed spaces to ensure the comfort and safety of both visitors and animals. With a semi-transparent roof providing natural sunlight and sustainable energy efficiency and rainwater management systems, the Orientarium is a model of ecological design.

The Orientarium offers an unparalleled experience, featuring the largest elephant enclosure in Poland, a 26-meter ocean tunnel and the Sunda Islands zone, home to endangered species such as Sumatran orangutans and Malayan sun bears. It actively supports global nature conservation, participating in breeding programs for critically endangered animals and reintroduction activities for species such as the lynx and lemur catta. As one of the most modern zoos in Europe, it is an example of how modern facilities can combine innovation with nature conservation. I strongly encourage you to visit Łódź and see this extraordinary place for yourself.
